Department:
Trade, Industry and Competition
REPUBLIC OF SOUTH AFRICA

THE NATIONAL ASSEMBLY

QUESTION FOR WRITTEN REPLY

QUESTION NO. 3952

DATE PUBLISHED: 28 OCTOBER 2022

Mr M J Cuthbert (DA) to ask the Minister of Trade, Industry and Competition:

- (1) Whether, with regard to communications, media and marketing services contracts of the National Lottery Commission in the past three financial years, he will furnish Mr M J Cuthbert with (a) a list of service providers, (b) the nature of services provided, (c) the date when services were provided and (d) the total monetary value of each contract;
- (2) What supply chain management process was followed for the (a) tender, (b) preferred supplier, (c) treasury database and (d) single-source in respect of each specified contracts?

NW4920E

REPLY

The National Lotteries Commission has furnished me the following reply on their communications, media and marketing services in the past three years.

A number of transactions of the NLC have been flagged by the Auditor General. This follows a letter addressed by the Ministry to the Auditor General, drawing attention to findings of the SIU.

The NLC advised that the adverse findings made by the Auditor-General will be investigated and disciplinary steps taken. I have requested the NLC to update me on the progress of the investigation and disciplinary steps taken.

The reply from the NLC follows:

“(1)(a),(b),(c),(d) and (2)(a),(b),(c),(d)

Please refer to the tables below for a list of service providers, the nature of the services provided, date when the services were provided, the total monetary value and the Supply Chain Management process that was followed.

Sole supplier and single source were used in instances where the NLC was targeting a specific audience and when there was one service provider running a campaign to which the NLC wanted to participate in. These transactions have since been declared as irregular expenditure by the AGSA on the basis that it was not impractical for the NLC to obtain three quotations for those below R500 000 and that the transactions above R500 000 should have been procured through competitive bidding process or deviation approved by the National Treasury and not by the Commissioner. The NLC is currently undertaking a determination exercise on these transactions as required by the National Treasury framework, disciplinary steps will be taken against all that have been found to be in contravention of the supply chain regulations

Tender relates to the transactions which have been procured through the marketing panel that the NLC procured after following a competitive bidding process.

Treasury database relates to the transactions that were procured through sourcing quotations from the Central Supplier Database.
